Personal Watercraft Lift

PL 1000 PWC Lift

RGC Advantage

RGC PWC Lifts combine the physical strength of quality marine grade aluminum with the engineering expertise of the most experienced boat lift manufacturer in the industry.

RGC lifts protect your watercraft from damaging wave action, floating debris, weeds, algae and zebra mussels.

Features & Benefits

- 1000 pound single, standard model designed to meet your PWC and light boat requirements.
- Durable marine grade, all aluminum frame construction provides superior strength with minimal maintenance.
- Corrosion resistant stainless steel cables and hardware provide long component life.
- Low maintenance polymer sheaves prolong cable life.
- The winch mounts on either side for versatility.
- A large 30 inch powder-coated handwheel and winch raise and lower the watercraft with minimal effort.
- Foot plates pivot to adjust to irregular lake beds or those with a slope.
- Assembly and installation are easy and require basic hand tools.
- 15 year limited warranty on aluminum material and workmanship.

PL 1000 PWC Lift

Applications

- PWC Lifts are ideal for safely securing your personal watercraft when it's not being used.
- They are easily adapted to various water depths with the addition of 3 ft., 4ft. or 5ft. adjustable deep water extension legs.
